

Challenges of health data in Europe – Are We Preparing? Building trust - Enabling Science

#ProtectHealthData

Wednesday 6 April 2022 15.30-17.30

4 rue Léon Jost 75017 Paris / ZOOM

Joint event of the

Conseil National de l'Ordre des Médecins (CNOM) and the
Standing Committee of European Doctors (CPME) organised within the context of the French
Presidency of the Council of the European Union

This event aims to contribute to the inclusion of digital health in a framework of ethical values through the implementation of the [European principles for ethics in digital health](#) adopted by the French Presidency of the Council of the European Union. Given the mass introduction of digital tools in the doctor-patient relationship, we will discuss what tools are needed to safeguard doctors' data and protect patients' personal data.

Welcome by Dr Patrick Bouet, CNOM President and by Dr Christiaan Keijzer, CPME President

Opening Statement by **Mr Dominique Pon, French Ministerial eHealth Delegation**

Moderated panel discussion by **Dr Jacqueline Rossant-Lumbroso, CPME Vice President**

Panellists

- **Mr Gérard Raymond**, France Assos Santé President;
- **Mrs Jessy Pollux**, CNOM DPO;
- **Mr Markus Kalliola**, Project director, Finnish Innovation Fund Sitra
- **Dr. Ignacio Alamillo-Domingo**, Spanish Medical Council Digital transformation Director

Open discussion with questions from audience

Closing remarks by Ray Walley, CPME Vice-President and Dr Patrick Bouet, CNOM President
